Reasons for Allowance

1. Claims 2, 3, 6 and 7 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither anticipates nor renders obvious all the limitations in independent claims 2, 3, 6, and 7.

Claims 2& 6 are allowable over the prior art because the prior art does not show power source feeding terminals made longer in both the extraction direction and the direction opposite the extraction direction than the extraction detecting terminal, the length of the power source feeding terminal protruding on the opposite side to the extraction direction, beyond said extraction detecting terminal being smaller in length than the length of the power source feeding terminal protruding on the extraction direction.

Claims 3 & 7 are allowable over the prior art because the prior art does not teach power source feeding terminals touches the corresponding terminal of the host equipment at two points along the extraction direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The following patents and published patent applications are cited to further show the status of the art with respect to similar IC card connector structures.
